

MyPiggiesBank Piggie

www.mypiggiesbank.com

Our Goal

Educate newcomer and kids the world of masternode and staking coins. How to start, how to earn and how much you can earn!

Before

Prologue

This coin was created after I was the technical developer in another project, this other project was a scam project of the one who commissioned me to create the coin. Since I don't want to let this happen to me, this project has grown and after I have taken a closer look at it, the desire to introduce newcomers and kids to Masternode and Staking coins via pocket money has grown.
